KELLY KING

185 Channel St, San Francisco, CA 94158

810-300-0692   **kelly.danielle.king@gmail.com**

QUALIFICATIONS

I have been working as a software developer for the last four years. I've had opportunities to work with many great companies, build consumer facing applications, and organize several tech Meetup groups, including the Ann Arbor Women Coders group, which I co-founded last year.

Now I'm searching for my next great adventure, as a web developer on a cutting-edge product.

ACCOMPLISHMENTS

- [www.kellyking.me] My personal website and portfolio.
- [www.inspires.io] Social idea sharing application using MeteorJS, Node and MongoDB.
- [www.hackspace.org] Find places to code. Created using Laravel, Sass and FourSquare API.

EDUCATION

- University of Michigan – B.S. in Environmental Science, 2010
- Eastern Michigan University - M.S. in Computer Science, *In Progress*

PROFESSIONAL EXPERIENCE

SYSTEMS IN MOTION   Ann Arbor, MI   May, 2013 – Present
Front-end Developer

- I currently work as a front-end developer on a 7-person scrum team. My team consults for a major bio-tech company, creating and maintaining genotyping software.
- Since starting, I have introduced new technologies such as LESS and Jasmine.
- In this position, I work with JavaScript, HTML and CSS to build Single Page Applications with libraries such as Backbone, Bootstrap and RequireJS, along with several data visualization tools.
- I regularly work with UX Engineers to prototype new applications and iterate based on user feedback.

INSITE DESIGN LAB   Ann Arbor, MI   May, 2011 – April, 2013
Co-Founder and Web Developer

- I created custom websites and applications for local companies and not-for-profit organizations.
- I worked extensively with WordPress, as well as open source PHP frameworks including CodeIgniter and Laravel.

STEELFISH DESIGN   Plymouth, MI   December 2010 – April 2011
Web Design Intern

- This position provided me with hands-on experience creating WordPress themes from Photoshop designs.
